facts for kids**

May 26th, 2020 - let s find out
when you plant seeds in
some soil it is important to
keep the soil watered not too
much the reason this is so
important is because the
seeds you plant need to be
able to take in oxygen and
minerals from the soil and
water through the seed coat s
tiny pores holes to give the
inside of the seed the food it

needs to break open and
make its way through the soil
so it can"
