the logic of sports betting book review

May 25th, 2020 - attack surface is a prominent concept in the logic of sports betting and refers to the wide array of betting opportunities that are available across the vast majority of sportsbooks these days there are so many markets on offer that they are basically impossible to monitor correctly the authors are believers in betting where the bookmakers are weakest and in america that means away from the main points spread money line and totals markets and instead playing in the derivative" *the logic of sports betting by ed miller* **goodreads**
