'theory of colours ??

May 14th, 2020 - by the time goethe s theory of
colours appeared in 1810 the wavelength theory
of light and color had been firmly established
to goethe the theory was the result of
mistaking an incidental result for an elemental
principle far from pretending to a knowledge of
physics he insisted that such knowledge was an
actual hindrance to understanding'

**'primitivist theories of color bibliography
philpapers**

**May 16th, 2020 - primitivist theories of color
hold that the colors are primitive properties
not susceptible of further analysis in
particular they cannot be identified with
physical properties or dispositions to produce
effects in perceivers primitivism is thus
inpatible with physicalist and dispositionalist
theories of color'**
